TOXIC SUBSTANCES CONTROL ACT (TSCA) DECLARATION

1. **Toxic Substances Control Act (TSCA)**
   The Toxic Substances Control Act (TSCA) is a US federal chemicals management regulation. Multiple sections of TSCA outline substances and substance groups that are restricted and/or reportable based on their properties, posing unreasonable risk to humans and the environment, as identified by the EPA. Some of the chemicals with restrictions can be used in certain scopes or with applicable exemptions. This declaration indicates whether a TSCA restricted substance is contained or not contained, without consideration of thresholds. The Declarable Substance List is available for download from the Assent platform.

2. **Substance List Version**
   Enter the MM/YYYY of the substance list version that this declaration applies to

Substance List Version	12/2024

3. **Scope of Declaration**
   This declaration applies to the parts or products (range of parts or product ranges) listed in the table below.

   This declaration remains valid until a revised version is issued. If material changes to the product(s), including composition, design, or manufacturing process, occur, the declarant will notify the customer.

4. **Compliance Status/declaration**(data MUST be entered in table):

Part, Product or Part/Product range	DOES contain	Does NOT contain	Substance Name/Group	CAS/EC Number	Concentration (%)	Exemption
