Dear Valued Customer,

Letter for the information regarding Art. 33(1)
of the
REGULATION (EC) No 1907/2006
OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL
(REACH regulation)

Confirmed Date: 14th April 2026

The Article 33(1) of regulation (EC) No 1907/2006 (REACH) requires a supplier to inform its customers if an article contains a substance(s) on the Substances of Very High Concern (SVHC) Candidate List in excess of 0.1% weight by weight of that article. On 25th November 2025, ECHA increased the number of substances on the SVHC List to 253 substances. Kowa Optronics Co., Ltd. is fully aware of its obligations resulting from REACH and intends to comply with the regulation in its entirety.

Kowa Optronics Co., Ltd., to the best of its knowledge, has determined, Applicable Products listed as below which are to be supplied to your company on and after the Confirmed Date above ("Applicable Products"), contain SVHC in a concentration above 0.1% w/w of their subparts.

Applicable Products:

Table of Applicable Products is provided on the following pages.

Content of SVHC (253 Substances: https://echa.europa.eu/web/guest/candidate-list-table)

(*1) We state " contain(s) " in this letter when certain SVHC is present in Applicable Products in concentration above 0.1wt % based upon the calculation, subject to (i) the information of SVHC provided by our supplier and (ii) the information of parts/materials used in Applicable Products. We update this report if we obtain information newly.
(*2) The view of the Glass Alliance Europe —the European Alliance of Glass Industries— https://www.glassallianceeurope.eu/ is that the obligation to notify under Art. 7(2) of REACH and to communicate down the supply chain under Art. 33 of REACH only applies to articles which contain Candidate List substances. Substances included in the Candidate List are used to produce glass and involved in processes leading to the production of glass articles. In these processes, the substances are chemically transformed into the glass substance. The glass substance is subsequently processed into articles. In these cases, the substances are completely transformed and not present as such in the final glass article. Consequently, there is no obligation to notify raw materials used to produce glass under Art. 7(2) of REACH, nor to communicate information down the supply chain under Art. 33 of REACH.

Yours respectfully,

Kowa Optronics Co., Ltd.
